Eriez® will Introduce New Suspended Magnets to the US at CONEXPO-CON/AGG

Erie, PA—[Eriez®](#) will exhibit a variety of [magnetic](#) and [material handling](#) equipment solutions at [CONEXPO-CON/AGG 2020](#), taking place March 10-14 in Las Vegas, Nevada. One of the highlights of the company's display will be [CP-20 and TP-25 Suspended Permanent Magnets](#), which were recently introduced in North America.

[CP-20 Series Magnets](#) and [TP-25 Series Magnets](#) are a powerful, reliable and economical choice for aggregate and concrete recycling customers as well as mobile crusher OEMs and conveyor OEMs.

[CP-20 Series Magnets](#) utilize a single-pole permanent magnet circuit to provide a uniform field across the feed belt to optimize separation efficiency of damaging tramp iron. [TP-25 Series Magnets](#) utilize a twin-pole permanent magnet circuit to provide maximum ferrous removal at higher suspension heights. The twin-pole magnetic circuit used by the TP Series Magnets allows for horizontal lift of longer ferrous objects, such as rebar or wire.

Customers can choose from manual and self-cleaning configurations for [CP-20 Series Magnets](#) and [TP-25 Series Magnets](#). These units are now part of [Eriez' Quick Ship Program](#) and available to meet customers' most urgent needs.

In addition to the Eriez' [CP-20 Series Magnets](#) and [TP-25 Series Magnets](#), the company's [CONEXPO-CON/AGG 2020](#) display will also feature an [HVF Feeder](#), [Suspended Electromagnet](#) and [AIP Magnetic Pulley](#). Visitors will have a chance to view equipment demonstrations and speak with Eriez experts who can match solutions to their toughest processing challenges.

To see Eriez at [CONEXPO-CON/AGG 2020](#), stop by booth B-93309.

Eriez is recognized as world authority in separation technologies. The company's magnetic lift and separation, metal detection, fluid recycling, flotation, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, plastics, rubber, recycling, food, mining, aggregate, textile and power industries. Eriez manufactures and markets these products through 12 international subsidiaries located on six continents. For more information, call (814) 835-6000. For online users, visit www.eriez.com or send email to eriez@eriez.com. Eriez World Headquarters is located at 2200 Asbury Road, Erie, PA 16506.
